```java
1 package com.geetus;
2
3 public class arrray {
4     public static void main String args {
5         int arr = new int 5 ;
6
7         arr 0 =10;
8             arr 1 =20;
9             arr 2 =30;
10            arr 3 =40;
11            arr 4 =50;
12
13            int abc= arr.length-1;
14            int efg= arr 0 +arr abc ;
15
16
17            System.out.println "Sum of First and last Element of Array is: "+ efg ;
18
19
20    }
21
22 }
23
```
